Constantinople -- The peoples of this country were alarmed to hear the news...all of it. First, our proud country is raped... Second, so was Italy, who, after first being duped, was then walked on and spit at by the French. ##### We now will retaliate. Propaganda -- ENG -- Russia: Congratulations. The pressure is beginning to tell on Buddy the Brat.

Rome -- London: Actually, I don't expect to receive much help from either side, but since I never, excuse me, hardly ever heard from either you or France I never knew what to do, or even if a knife were aimed at my back. Anyway, I felt sorry for poor little Buddy, all by himself in such a cruel world. And, of course, I only expect your full vengeance if you ever get to give it. Propaganda --

Paris -- Alarm shook this capital tonight when word reached here of the disappearance of the King of England. "Mutha!" shrieked Louis the Last. Louis ordered a fleet to be built in Brest, on the theory that if George's place is usurped, the new King of England would not prove as friendly as the last one. "Even then", stipulated Louis, "we will use our new fleet for shore patrol only, unless we are provoked; we have better things to do than fight England".

Paris -- Russia's press release was most interesting. Assuredly France and England will ally with you...and go south...except where does that leave England? Anyway, Ivan (Nicholas?), I will attack Vienna in Spring 1912, perhaps with support, perhaps not. Plan your moves accordingly.

Deadline for SPRING, 1912 moves -- Noon, Tues., Aug. 19.

TUR -- Ank, Con, Smy, Bul, Gre, Tun, Ser (may build one unit). (7)

Propaganda -- Turkey -- Russia: As you can see I'm still on your side. If we can knock Austria out quick (the next year) we still have a prayer. Otherwise, England lets France win. (I bet! Ha! I don't know which of them is the biggest fool, but one of them obviously is.)

Moscow -- London: I'm afraid that you are the fool, my friend. You have an excellent chance to come in first, but you'd rather come in second. Why do you play this idiot's game in the first place if you have that kind of attitude? I admit it's easier to play that way; all you have to do is write all your neighbors and say that you'll help them come in first, as long as you survive. You may come in second, which will in all probability be much better than I'll finish, but at least I will have played a game! I hope that that piece of propaganda was only a bit of deception to throw over the Frenchie's suspicions; otherwise, have fun . . .!

Deadline for W'10 builds/removals: Noon, Tues., Aug. 19.

Rome -- Paris: Unless you have three builds, we would prefer it greatly if you did not build in Marseilles, especially a fleet! Notice, none of our units moves west. F Tyn held and A Ven went east. Good luck in the north!

Turkey -- Italy: Let's stay cool, man! That fat cat England is just sitting up there waiting for us to jump each other. So let's surprise him. I'll meet you on the banks of the Rhine in a few years, how about that?
